THE UNIVERSITY LIBRARY FOR STUDENTS WITH SPECIAL NEEDS

Univerzitní knihovna pro studenty se specifickými nároky

So-called Teiresias Library provides access to study materials in suitable formats, i.e. those that help visually impaired students work effectively with required study texts. Even after the services of the Centre were extended to students with other types of disabilities, the library has remained mostly as a service to visually impaired students, or students with impairment of fine motor skills, who have difficulties using standard library documents.
